

PRODUCT BULLETIN

CITRUS SOLVE

Solvent Degreaser

General Description

CITRUS SOLVE is a biodegradable, non-toxic, multi-purpose cleaner which is formulated using oils extracted from the processing of citrus fruit, nonionic surfactants, and cleaning aids. It contains no harmful chemical additives, chlorinated hydrocarbons or EPA rated hazardous ingredients. **CITRUS SOLVE** is effective in cleaning petroleum grease, tar, asphalt, and any type of oily soil. **CITRUS SOLVE** is environmentally friendly, economical to use and its fragrant citrus aroma leaves areas smelling clean and fresh. It has a natural antibacterial action which helps to sanitize as you clean.

Application

CITRUS SOLVE should be used as provided for cleaning oils, tars, or greasy surfaces. **CITRUS SOLVE** can be diluted with water to desired concentration for general cleaning of walls, floors, or cooking areas. **CITRUS SOLVE** should be sprayed, brushed, mopped or wiped on contamination; allow to penetrate and then wiped or flushed off with fresh water.

Flash Point	120 - 130 ^B F

Availability

CITRUS SOLVE is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

Handling

*Although **CITRUS SOLVE** is a natural product, its excellent solvating abilities require some precaution in use. Gloves are recommended if working with the product for long periods or if skin is sensitive. Avoid contact with the eyes. Always test **CITRUS SOLVE** on an inconspicuous area before use. Styrene based plastics are affected by **CITRUS SOLVE** to varying degrees. Since such plastics are difficult to identify in the home, we do not recommend the use of this product on plastic finishes of any kind. Some types of rubber products are also affected by prolonged exposure and contact with these materials for longer periods should be avoided.*
