PRODUCT BULLETIN

ALUM BRITE 180 HF

Aluminum Cleaner High Foam

General Description

ALUMBRITE 180 HF is a blend of gentle acids, detergents and cleaners designed to clean aluminum, stainless steel and fiberglass. A unique detergent action is gentle yet strong enough to remove carbon deposits. AlumBrite HF contains special foaming additives for use with foaming applicators.

Application

ALUMBRITE HF can be used as provided for heavy oxidation and scale or **ALUMBRITE 180 HF** can be diluted in ratios of 1 : 1 to 1 : 15 in water depending on surfaces to be cleaned.

ALUMBRITE 180 HF can be applied with a brush or sprayer on wet surfaces. Apply from the bottom and work up allowing two to five minutes for penetration of the deposits. Rinse well with water while brushing in order to get a brighter surface. For fiberglass, use as provided, spray or brush onto surface, brush off deposits and rinse.

Physical Properties
