PRODUCT BULLETIN

CARWAX-15

Car Wash Auto Carnauba Spray Wax

General Description

CARWAX-15 is an extremely effective liquid catatonic emulsion of pure carnauba wax. The catatonic emulsifiers function to ensure rapid and uniform deposition of a thin film of carnauba wax on most substrates, including fabric, metal, wood, leather and painted surfaces.

Application

The car wash will use **CARWAX-15** by diluting 1 : 10 with water and then injecting 6 to 8 ounces of the diluted product onto each car. **CARWAX-15** can be used undiluted to protect unfinished wood or finished furniture by coating and allowing to dry. **CARWAX-15** forms a long lasting, hard and impervious protective coating. Furniture should be buffed after drying to achieve a high gloss. When used as a general protective coating, dilutions of **CARWAX-15** may be dip-bath or sprayed on leather, paper, metal, painted metal or fabric substances and a thin uniform coating of wax will instantly adhere to the surface.

Physical Properties

Color	Dark Brown or Black Liquid
Odor	Low
Specific Gravity	1.01
Density	8.4 lbs./gal
pH	Neutral
Flash Point	None
Solubility	Water Soluble

Availability

CARWAX-15 is available in UN approved 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers and MSDS. Normal precautions for industrial chemicals apply.
