## PRODUCT BULLETIN

### ET-700M

Biodegradable Cleaner/Heat Transfer Systems/  
Hot Oil Units/Glycol Dehydration Systems/  
Cooling Systems

#### General Description

**ET-700M** is a biodegradable cleaner for heat transfer systems, hot oil units, glycol dehydration systems and cooling systems (radiators). **ET-700M** is a concentrated, essentially neutral pH solution specially formulated to remove rust, mineral scale and corrosion by products from most heat transfer systems. **ET-700M** is safe to use in cleaning multi-metal systems containing carbon steel, copper and aluminum.

#### Application

**ET-700M** is formulated to be diluted from 1 : 4 to 1 : 10 depending on the application. In all cases, **ET-700M** must be heated to 160° F - 180° F. Circulation time varies from each application. For precise recommendations contact **JMN Specialties, Inc.** service personnel. (See attached guidelines.)

#### Physical Properties

Color	Green
Appearance	Clear
Odor	Mild Surfactant
Specific Gravity	1.19
pH	3.5
Freeze Point	17° F

#### Availability

**ET-700M** is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

#### Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
