## PRODUCT BULLETIN

### SPEC SOL 1500

#### Solvent Cleaner for Surface and Downhole

##### General Description

**SPEC SOL 1500** is a combination of aliphatic and aromatic solvents specially formulated to be used in degreasing and chemical processes. **SPEC SOL 1500** does not contain surfactants and will not cause oil water emulsions to form and will not affect oil water separators.

##### Application

**SPEC SOL 1500** is excellent as a pipe thread cleaner, degreaser in closed circulation systems or a bulk degreaser in cleaning process vessels. **SPEC SOL 1500** is very effective for cleaning asphaltene and paraffin type contamination from gas separators, dehydration units, and other gas handling process equipment as well as dissolving and cleaning blockage from perforations in oil/gas production downhole.

##### Physical Properties

Color	Clear to Light Amber
Odor	Aromatic Hydrocarbon
Specific Gravity	0.89 - 0.90
Flash Point	> 144° F
Boiling Point	290° F - 330° F

##### Availability

**SPEC SOL-1500** is available in UN approved 5 gallon pails, 55-gallon drums and bulk quantities.

##### Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply. This document does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this product to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.
