## PRODUCT BULLETIN

### DG-88C

#### Alkaline Degreaser / Bilge Cleaner

##### General Description

**DG-88C** is an effective, highly concentrated, biodegradable, water-soluble cleaner / degreaser. **DG-88C** was developed as total maintenance product for general industry and as a Steam Cleaner Additive. **DG-88C** contains no chlorinated hydrocarbons, no petroleum distillates and very little free caustic.

##### Application

**DG-88C** should be diluted and sprayed onto surface, allowed to penetrate and then hosed off with water pressure. It may also be applied with a rag, sponge or mop. When used as a bilge cleaner, use 1:10 for extremely contaminated bilges, and up to 30:1 for normal oil control. Use 2 - 5% when used as a circulating cleaner or in steam injection.

##### Physical Properties

|                  |              |
|------------------|--------------|
| Color            | Red          |
| Odor             | Bland        |
| Specific Gravity | 1.05         |
| pH               | > 12.5       |
| Density          | 8.7 lbs./gal |
| Flash Point      | None         |
| Water Solubility | 100%         |

##### Dilutions

Depending upon the condition of the surface to be cleaned and age of the deposits, **DG-88C** may be diluted with water: For heavily grease-encrusted machinery; use 1 : 1. For engine rooms and medium oil deposits; use 5 to 1. For light cleaning; use as much as 20 to 1. As a Steam Cleaner Additive; use 1-2 pints / 3 pounds of powdered material normally used

##### Availability

**DG-88C** is available in UN approved 1 gallon pails, 5 gallon pails and 55 gallon drums.

##### Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
