PRODUCT BULLETIN

SPEC SOL-63 NC

Paint Clean-up Solvent / Stripper

General Description

SPEC SOL-63NC is a non-methylene chloride, non-butyl cellosolve, non-caustic soda blend of organic solvents that will penetrate, loosen and remove industrial paints, oil and grease and carbon deposits from ferrous and non-ferrous metal surfaces. When used as a paint clean-up solvent, it will effectively clean paint pots, lines, and guns without the danger associated with typical flammable paint thinners. **SPEC SOL-63NC** is non-toxic and is considered biodegradable by EPA standards.

SPEC SOL-63NC is considered non-hazardous and is free of phosphate and chlorinated solvents.

Application

SPEC SOL-63NC is used at full strength in vat or immersion tank applications. Normal vat operating temperatures should be 150^B - 170^BF. When the paint and grime loosens, rinse with a pressure washer to remove residuals.

Physical Properties

Form	Liquid
Odor	Slight Aromatic
Specific Gravity	1.04
pH	10.5
Flash Point	197 ^B F
Rinsability	Complete with Water

Availability

SPEC SOL-63NC is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
